

REMARKS

This Amendment is responsive to the Advisory Action mailed on May 1, 2008 and supplements the Final Office Action received on February 11, 2008 setting a three-month shortened statutory period for response which expires on May 11, 2008. Claims 1, 5, 6, 9 and 19 have been amended as set forth above. A Request for Continued Examination accompanies this Amendment. Prompt reconsideration is requested.

Claims 1-11 and 19-27 stand finally rejected as unpatentable over Gabai et al. In the Advisory Action the examiner noted that Applicant's claims fail to positively claim location of storage. Claims 9 and 19 have been amended specifically to provide storage location. Further, each of claims 1, 9 and 19 now recites that the notifications are generated automatically by the device in response to receipt of the signal from a transmitter, such as on a roving character. There is no need for the use of a central controller as in Gabai since the notifications are purely generated within the devices automatically. the Gabai system provides the identification through the central controller. There is no disclosure of Automatic notification generation. This is not taught by Gabai. The Director is authorized to charge any fee(s) or any underpayment of fee(s), or to credit any overpayments to **Deposit Account Number 50-2638**. Please ensure that Attorney Docket Number 054317-029101 is referred to when charging any payments or credits for this case.

Respectfully submitted,

John R. Wahl
